

PLISSÉ

ACCESSORIES | Indoor
DRAGA & AUREL

The Plissé furniture collection stems from Draga & Aurel's project to create an elegant and refined piece of leather furniture that is also dynamic, joyful and light at the same time. Starting from the two artists' background in the world of textiles, the inspiration for the sophisticated leather and wood pleating that characterises the storage elements comes from the idea of a pleated, slatted skirt. A feminine and elegant garment associated with light-heartedness and mystery. The burnished brass of the legs and handles is paired with dark wood and provides depth and three-dimensional colour, while the leather-covered surface creates a pattern of unique shades in every piece. The possibility of freely combining colours and materials enhances the game of contrasts and nuances, embellishing any room and making these complements extremely versatile.

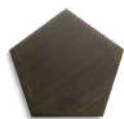

Structure: mDF frame with internal natural maple veneer with external back in matt black stained oak. Curved shutter in poplar plywood with internal veneer in black oak. Externally, one shutter is covered with leather, the other one with a triangular plissé pattern. This pattern is in matt black-stained oak on one side and leather-covered on the other.

Feet / Legs: burnished brass base.

Decoration: handles in hand-brushed burnished brass.
