

Container Table Bodhi

MARCEL WANDERS

The Container Table Bodhi, designed by Marcel Wanders, contains the classic Container Table foot, but with a wooden wrap. The wooden slats add a softness to the design, losing none of its stability. Fill the table foot with sand or pebbles to add strength and create a solid base. Container Table Bodhi is the solid and subdued foundation you build your home around. The Container Table Bodhi can seat up to ten people. Do you prefer a different colour, material or size? Configure the Container Table Bodhi to your own wishes with the online configurator.

Detailing

The vertical slats made from oak add softness and a natural touch to the Container Table.

ADDITIONAL

If the option is available and you choose a table with a socket and would like an extension cable with female connector and plug, it will have to be bought locally. It is not included in the set. Only the male plug is included.

MATERIAL

PE Base, tops in different materials.
