

HUBBLE

LIGHTING | Indoor
PIETRO RUSSO

Hubble is a collection of satin-finished and laser-cut brass lamps designed by Pietro Russo for Baxter, an original and evocative lighting project with a sculptural reticular structure. In their innate elegance, the Hubble pendant lamps and wall lights add dynamism through a play of shadows created by the rhythmic alternation of solids and voids of the brass structure, which encircles the light source, creating reflections in the space.

Model: lamp with LED light source. Assembly required.

Structure: laser cut satin brass structure.

Specify the chosen dimmeration in the order.

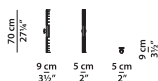

AVAILABLE FINISHES

Satin-Finished Brass
