STUDIOPEPE

With Verre Particulier, Studiopepe creates a marble and glass coffee table that transcends the concept of design. Verre Particulier is a functional sculpture, an object that invites contemplation, capable of capturing the eye with evocative geometries of magnetic charm. The elementary forms dialogue with each other in perfect balance, expressing themselves in noble materials and special workmanship. The fused glass top features unique imperfections, made with a distinctive technique that creates slightly irregular surfaces full of personality. Each reflection, each variation in texture gives uniqueness, as in a work of art. The solid marble base comes in different variants that enhance the authenticity and nuances of natural stone. The irregularities of the marble, far from being defects, are evidence of its organic and unrepeatable character, which underlines the unique personality of each coffee table.
