Liberty Lounger

ATELIER VAN LIESHOUT

Sculptor Joep van Lieshout set himself a goal: to create one chair per day for a month. He named the project Prototypes as part of his utopian project New Tribal Labyrinth. This futuristic vision focuses on the reinvention of the industrial revolution by recreating an ideal world based on the lost relationship between individuals and raw materials.

Detailing

The sculptural Liberty Lounger is made out of American walnut. It comes with a soft sheepskin.
