

Lucrezia Soft

SOFAS

2021

Antonio Citterio

Description

Lucrezia Soft is a range of sofas defined by generous padding and rounded forms. The many elements making up the series of linear and modular sofas, available in two depths and multiple sizes, come in two versions. The first offers a plain seat cushion with a band and piping, the second a seat cushion with capitonné stitching. Both offer two options as regards the back cushions: a more compact version with lumbar support, for more restrained, formal seating arrangement; and a softer version with down feather cushions, for a more comfortable, laid back look. The upholstery, in fabric or leather, is enriched by refined "haute couture" detailing: faux leather profiles for the fabric versions and refined "profile" stitching for the leather ones. The Lucrezia Soft version with plain seat cushions may also be made to measure. All the elements may be customised in terms of width and depth, while preserving the product's formal and comfort-related qualities.

Technical information

Internal frame

tubular steel and steel profiles

Internal frame upholstery

Bayfit® flexible cold shaped polyurethane foam, polyester fibre cover

Seat cushion upholstery

shaped polyurethane of different density, polyester fibre, polyester and cotton fibre cover

Back cushion (LZ60C-LZ90C)

sterilized down, cotton cover, box style typology

Back cushion (LZC60_55C-LZC72_55C-LZC80_55C)

polyester fibre, cotton cover, box style typology

Base-frame

die-cast aluminium and extrusions

Ferrules

thermoplastic material

Cover

fabric (eco-leather profiles) or leather (profile stitching)
